Attached is a note from John L. Morgan, Raq., A.chitect, by which may be seen the opinion of Mr. Samuel Sloan, the celebrated Architect, and writer upon Architect, whose experience with this mode of roofling, without a coubt, is satisfactory to all.

MR. W. S. BENNETT: When in Philadelphia, Pa., a few days ago, I called upon Mr. Samuel Sloan, the celebrated Architect, and author of the Sloan Work on Architecture. I asked his opinion as to the durability &c., of West's Patent Roof, such as you are using in the city of Memphis, and he told me that he had no hesitation it saying to me that it is a good and durable roof, and is all that its advocates claim it to be, farther, saying that he is using it on a fine building for himself.
